WELCOME REMARKS

POLYTECHNIC OF NAMIBIA
Marc Grossman, president of the Business and Economic Research Center (BERC), emphasizes the critical role of research and development in driving economic growth. "The research and development sector is a key driver of innovation and economic development. It's crucial for businesses to invest in R&D to stay competitive in the global market."

The BERC's director, Dr. Jane Smith, agrees, stating, "Research and development are essential for economic growth. They drive innovation, create jobs, and improve the quality of life."

The BERC advocates for increased investment in R&D, arguing that it is essential for economic growth and competitiveness in the global marketplace. "We need to support research and development initiatives to ensure a strong and vibrant economy," Dr. Smith said.
I thank you all.

I think you all and innovation agenda.

and innovation agenda. The grants and look forward to meaningful collaboration in driving the national research

I think you all and innovation agenda. The grants and look forward to meaningful collaboration in driving the national research

Finally, I would like to thank the NCST for awarding the research grants to the
